### **Fentanyl: The Biggest Killer in America!!!!**

Last year, an average of 107,375 people in the United States died of drug overdoses and drug poisonings in the 12-month period ending in January 2022, leading to the highest number of overdoses ever last year. During this two-year period, fentanyl-related overdose deaths among adolescents jumped 350%. In September 2021, the Drug Enforcement Administration (DEA) issued a Public Safety Alert warning Americans about the alarming increase in the lethality and availability of fake prescription pills containing fentanyl and methamphetamine killing thousands of people in the US. This is how Bruce's Law came into place. Bruce's Law has been introduced in memory of Sandy Snodgrass's 22-year-old son Bruce, a young Alaskan who died in October of 2021, after taking a drug she doesn't think he knew was fentanyl. Bruce's Law seeks to facilitate government cooperation and public awareness about the dangers of fentanyl, while allocating additional funding to community organizations and coalitions. This bill focuses on promoting substance use awareness among school-aged children and youth to address the rise in use and fatalities impacting young people like Bruce. Bruce's Law is the reason we have gone a step ahead and have added a NEW 12 panel instant drug testing and lab base testing that includes Fentanyl. Let's help keep our community, family, and friends safe and prevent any more deaths between our loved ones due to this awful drug. If you would like additional information please contact any of all of our 6 locations.

**One Pill can Kill!!! All it takes is 2mg to overdose on Fentanyl!!!!**

### **Rapid Drug Test Available!!!!**

Rapid Drug testing is, simple, immediate, and inexpensive. It is a great solution for private companies, institutions, and schools that perform pre-employment, drug testing or wish to test existing employees. Also, it can be difficult to watch our loved ones struggle with unhealthy habits. In order to provide the needed support to help them overcome those unhealthy habits, these rapid drug tests can give us a place to start and a tool to monitor their progress. We currently offer 6 and a NEW 12 panel rapid drug test that includes Fentanyl at all our 6 locations where results can be given to you within minutes! Please contact our office for additional information at 432-332-9421.
