What is the FMCSA Clearinghouse?

How do you know if your applicant has had any previous drug and alcohol violations? So many questions, on a great new system that was created for that purpose. The FMCSA clearinghouse is a secure online database that provides real-time information about a CDL drivers drug and alcohol program violation. The clearinghouse was designed to not only report a violation but also report any substance abuse programs that a particular driver has already taken, the employer will have full access to view the Return to duty process, and any follow up testing that has already been performed. The driver will also have to register to the clearinghouse authorizing the employer to run a query and view their records protecting them from treatment programs they have already abided by. "Of course, if they refuse to allow access that will impact their employability". It's a regulation and a system that's designed to reduce the issue of drivers switching from one company to another, it's meant to catch people who are trying to game the system. The most important part is that it's meant to keep the motoring public safe. This program is **REQUIRED** by FMCSA for all employers who have CDL drivers. This is why we are now offering new clearinghouse programs where we can handle all your queries and report for you. Let us take care of your business and keep your company drug free. This month we will be offering a free Supervisor Awareness Class with limited seats available. Contact our office today and we can have set you up immediately.

Fentanyl is the nation's greatest and most urgent drug threat!

The shift from the plant base drugs, like heroin and cocaine, to synthetic chemical-based drugs, like Fentanyl has resulted in the deadliest drug crisis the United States has ever faced. Two milligrams of fentanyl are considered a potentially fatal dose. Over the past two years the DEA seized over 79 million pills that were laced with 30% of Xylazine. Please keep yourself aware of your employees or even loved ones to prevent fentanyl coming to your home. We currently offer a 12-panel rapid (with immediate results) and lab base drug test that include fentanyl drug testing.

We are Now offering Supervisor Awareness and DER (Designated Employer Rep) Class in English and Spanish!

Classes are required from the Department of Transportation. Contact our office and sign up today!
