We are the leading Drug Testing providers in the Nation!!!

Why is it important to drug test your employees? Safety is what every company strives for in the workplace. Drug testing can help employers identify and address potential safety concerns before they result in accidents or injuries. This, in turn, can help reduce the risk of accidents, injuries, and even fatalities. Drug testing at a workplace creates deterrence and helps identify barriers that could keep people from working. As we all know our country is surrounded by truck drivers delivering our everyday essentials in which we all appreciate. Our truck drivers are on the road 24/7 and we need to make sure rules and regulation are being followed to prevent any accidents from happening. With that being said the rules and regulations start with us! Following a random program and registering your company with the clearinghouse is requirement with the Department of Transportation and gives you the peace of mind that your workplace is drug free. We offer a great random program that will help keep your company compliant and can guide you through the clearinghouse process. Set up your company today and call our corporate office, or you can contact Esther Bueno or Brenda Mendoza at 432-570-6160.

Flu Season is Here!!!!

A flu shot can save your life! This year's annual flu shot will provide protection against four of the influenza viruses expected to be most common during this flu season. The flu is estimated to cause 400,000 respiratory deaths each year on average across the world. These deaths come from pneumonia and other respiratory symptoms caused by the flu. Each year, millions of people get sick with thousands that are hospitalized, and some resulting in death due to the flu. We recommend getting you flu shots in the month of September and October, the vaccine takes a couple of weeks to build up antibodies to give your body the immunity in needs help fight the flu. We encourage the community especially adults of the age of 65 and older who are at a higher risk to get the flu to get their shot today. Employers, now is the time to act and prevent the flu from affecting your work place which can help reduce missed work and the spread of flu to others.

We are Now offering Supervisor Awareness and DER (Designated Employer Rep) Class in English and Spanish! Classes are required from the Department of Transportation. Contact our office and sign up today!
