**DOT-Required Supervisor Awareness Training – Now Required by OXY**

Welcome to 2026! As we kick off another year, it's the perfect moment to reinforce your company's commitment to a safer, healthier, and more compliant workplace. Whether you're looking to launch a new drug-testing program or enhance your existing one, we're here to partner with you every step of the way. Ensuring compliance with Department of Transportation (DOT) regulations is essential for maintaining safety and reducing organizational risk, and we are pleased to highlight our most important training courses, including **DOT-required Supervisor Awareness training**, which is now also **required by OXY (Occidental Petroleum)**, one of the largest operators in the oil and gas industry. This mandatory training under 49 CFR Part 40 equips supervisors of safety-sensitive employees with the knowledge to recognize the signs and symptoms of drug use and alcohol misuse and to make reasonable suspicion determinations in compliance with federal requirements. In addition to Supervisor Awareness, we offer Designated Employer Representative, Breath Alcohol Training, and Collector Training Class that includes Post-Accident, Reasonable Suspicion Testing Compliance training, all designed to support supervisors, HR professionals, safety managers, and operations leaders in meeting DOT and operator-specific standards while remaining audit-ready and compliant. We have many Training classes available please contact our office and schedule today.
