VOLUME 60 **AUGUST NEWSLETTER 2026** ISSUE 05

Beat the Heat! Keeping your Workforce Safe this Summer.

As summer temperatures climb, protecting employees from heat-related illnesses should be a top priority. Whether working outdoors or in hot indoor environments, staying hydrated, taking frequent breaks in shaded or air-conditioned areas, wearing lightweight clothing, and recognizing the early signs of heat exhaustion can make a significant difference. Employers should encourage workers to drink water regularly, schedule strenuous tasks during cooler parts of the day whenever possible, and remind employees to look out for one another. A proactive approach to heat safety not only helps prevent injuries and illnesses but also promotes a healthier, more productive workplace.

Summer is also a busy hiring season, making it a great time to review your company's occupational health and compliance needs. Ensuring that new hires complete required drug testing, employees maintain current physicals, and DOT regulations are met helps keep your business running smoothly and safely.

We are proud to partner with businesses by providing:

- DOT & Non-DOT Drug Testing
- Pre-Employment, Random, Post-Accident & Reasonable Suspicion Testing
- DOT & Non-DOT Physical Examinations
- Respirator Fit Testing (Mask Fits)
- Pulmonary Function Testing (PFTs)
- Random Consortiums
- Detailed and Custom Background Check Profiles

Thank you for trusting us with your occupational health and compliance needs. Together, we can help create safer workplaces all year long. Contact us today to schedule services or learn more about how we can support your business.
